Subject: RE: Eisenbarth Discussion - 10/27/16

Good Morning Ms. Goodenow,

Thank you for your email. I am still awaiting final review of our TTPC data before forwarding on to you. In the meantime here is some of the information and clarifications you requested.

I was provided the following contacts for TTPC standards. Cambridge Isotope Labs. Terry Grim or Ben Priest 1-800-322-1174. Hopefully this is not one you have already attempted to contact.

As for the reporting of the TTPC results. My preference would be to see a consolidated report and discussion of all the TTPC results, biological surveys and toxicity testing results. It might be best to present these in the 15.a.iii report for review prior to the submission of the Final Report. This assumes we get approval to delay submission of the report until final analytical is received but I do not see that being an issue.

I hope this helps and I will follow-up with additional information shortly. Please let me know if you have any questions or concerns.

Have a great week.

Thank you,

JJ Justice

USEPA OSC

- We discussed the meeting you had previously mentioned and agreed that if/when we have a meeting it would be best scheduled after all reports have been submitted and

reviewed by the EPA.

I believe that covers everything we discussed today. If I omitted anything pertinent, please let me know. Thanks again and have a great weekend!

Best regards,

Vicki Goodenow
